FINDINGS OF FACT AND CONCLUSIONS OF LAW

The above captioned matters came before this Zoning Commissioner for a single public hearing to consider Petitions for Variance for five contiguous properties located in the Chesaco Park subdivision of eastern Baltimore County. The Petitions were filed by Nancy Leiter, surviving spouse of Donald S. Leiter, property owner, and Glen Arm Homes, LLC, builder. In each case, variance relief is sought from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of less than the 55 feet required, side yard setbacks of 5 feet each in lieu of the required 10 feet, a lot area less than 6,000 sq.ft., and approval of the subject lots as undersized, pursuant to Section 304 of the B.C.Z.R. Finally, general relief is requested to approve any other variances as may be deemed necessary by the Zoning Commissioner. All of the lots in question, and the requested relief are more particularly shown on the site plan submitted and marked into evidence as Petitioner's Exhibit 1.

Appearing at the requisite public hearing held in these matters were Nancy M. Leiter, property owner; Thomas A. Church, Professional Engineer who prepared the site plan for these properties; and, David Schulte and J. F. Levindusky on behalf of Glen Arm Homes, Builders. Also appearing in support of the request was Russ Mirabile, the Petitioner's brother and an active member of the Chesaco Park Community Association. A number of residents from the surrounding locale appeared in opposition to the request, including Pat Conway, Phil Marll, A. K. Huth, P. Bartosz, A. J. Sonntag and Nancy Schmidt.

Collectively, the Petitioner's proposal centers upon the proposed re-subdivision of 10 contiguous lots of record located within the Chesaco Park subdivision to create five new lots. As is the case with many of the older subdivisions in Baltimore County, the plat for Chesaco Park was laid out and recorded in the Land Records of Baltimore County well prior to the adoption of zoning regulations. Thus, by their nature, the lots are insufficiently sized to meet current requirements. The lots at issue include Lots 115 through 120, which front Patapsco Avenue and Lots 164 through 167, which front Severn Avenue. It is also to be noted that the four lots on Severn Avenue abut Lots 115 through 118, which front on Patapsco Avenue. Presently, a 1½ story single family dwelling with a detached garage, known as 312 Patapsco Avenue, straddles the lot line between Lots 117 and 118. Lots 115, 116, 119 and 120 are unimproved, as are Lots 164 through 167.

Ms. Leiter testified that she and her late husband have owned the subject property for many years. After his death, she attempted to sell the dwelling on Lots 117 and 118, but was unsuccessful. She now proposes razing that dwelling and re-subdividing the entire parcel as shown on the site plan to create five new lots. Specifically, the six lots identified as Lots 115 through 120 on Patapsco Avenue will be subdivided to create three new lots, and the four lots identified as Lots 164 through 167 on Severn Avenue will be subdivided to create two new lots. Each new lot will be 50 feet wide and 100 feet deep, and contain 5,000 sq.ft., which is less than the 6,000 sq.ft. required for a D.R.5.5 lot. As shown on the site plan, five single family dwellings are proposed, and will be known as 308 Patapsco Avenue (Lots 115 & 116), 310 Patapsco Avenue (Lots 117 & 118), 312 Patapsco Avenue (Lots 119 & 120), and, 303 Severn Avenue (Lots 166 & 167) and 303A Severn Avenue (Lots 164 & 165). The site plan shows that each lot will maintain a 5-foot side yard setback, which is less than the minimum 10 feet required. However, Mr. Church indicated at the hearing that houses with a width of 30 feet could be constructed on the lots, thereby maintaining a 10-foot setback on each side.

In support of the request, Ms. Leiter indicated that other homes in this community were built on 50-foot wide lots. Although admitting that the community indeed features homes on properties anywhere from 50 feet to 100 feet in width, Ms. Leiter believes that her proposal is not

As shown on the site plan, five single family dwellings are proposed, and will be known as 308 Patapsco Avenue (Lots 115 & 116), 310 Patapsco Avenue (Lots 117 & 118), 312 Patapsco Avenue (Lots 119 & 120), and, 303 Severn Avenue (Lots 166 & 167) and 303A Severn Avenue (Lots 164 & 165). The site plan shows that each lot will maintain a 5-foot side yard setback, which is less than the minimum 10 feet required. However, Mr. Church indicated at the hearing that houses with a width of 30 feet could be constructed on the lots, thereby maintaining a 10-foot setback on each side.

In support of the request, Ms. Leiter indicated that other homes in this community were built on 50-foot wide lots. Although admitting that the community indeed features homes on properties anywhere from 50 feet to 100 feet in width, Ms. Leiter believes that her proposal is not

inconsistent with the community. She believes it unfair that strict adherence to the regulations be required in this case, when other 50-foot wide lots exist in the community. She also presented testimony that her properties are taxed as four distinct parcels. Specifically, Lots 164 and 165 are taxed as a single unit, as are Lots 166 and 167, Lots 119 and 120, and Lots 115 through 118.

Testimony was also received in support of the request from Mr. Levindusky, Mr. Church and Mr. Mirabile. Mr. Church's testimony generally centered upon a presentation of the site plan. Mr. Levindusky indicated that it would not be economically feasible if required to build on lots that met the minimum width and area requirements. Mr. Mirabile indicated that members of the community are split on this issue. Apparently, there are some individuals who support the request and others who oppose same.

Testimony from the Protestants generally indicated that they believe the proposed development will overcrowd the land and be inconsistent with the community. Although acknowledging that there are 50-foot wide lots in Chesaco Park, the Protestants indicated that most of the homesites are larger. Of those lots that are 50 feet wide, the Protestants indicated that many of those were the result of family conveyances. Concerns were also expressed relating to traffic. Apparently, Patapsco Avenue is 19 feet wide and street parking can be difficult. Although Severn Avenue is wider, concerns were expressed about the additional traffic that would be generated by the five proposed homes. The Protestants also believe that the proposed subdivision would be an over-development of the subject property and would be aesthetically detrimental to the community.

It is also to be noted that the subject property is located within the Chesapeake Bay Critical Areas, not far from Back River. Thus, any development thereon must comply with Critical Areas regulations that were imposed to protect the Bay and its tributaries. Among those regulations is a requirement that limits the amount of impervious surface on each lot. The building envelopes proposed on the site plan show that a significant percentage of each lot will be impervious, or, covered by virtue of the proposed improvements. Although the Petitioner proposes the installation of parking pads to address the street parking issue, an additional area of driveway may be violative of the Chesapeake Bay Critical Areas requirements. That is, on-site parking pads and driveways

would surely add significant areas of impervious surface to each lot, in addition to the proposed homes.

The grant of variances in Baltimore County is governed by Section 307 of the B.C.Z.R. This regulation, as well as other similar statutes in various Maryland counties, has been comprehensively discussed by the appellate courts of this state. In McLean v. Soley, 270 Md. 3208 (1973), the Court concluded that variance relief should be granted only if in strict harmony with the spirit and intent of the zoning regulations. The Court further noted that the justification of the variance must be substantial and urgent and not merely for the convenience of the applicant. Similarly, in Easter v. Mayor and City Council of Baltimore, 195 Md. 395 (1950), the Court stated "...the mere fact that the variance would make the property more profitable is not a sufficient ground to justify the relaxation of setback requirements" (Pg. 400).

More recently, the Court of Special Appeals construed the variance statute in Cromwell v. Ward, 102 Md. App. 691 (1995). Therein, the Court stated that the Petitioner must show that the subject property is unique in order for variance relief to be granted. Only upon a finding of uniqueness can the Zoning authority next determine whether strict adherence to the regulations would cause the property owner a practical difficulty. Finally, variance relief can only be granted if there will be no adverse impact to adjacent properties.

I am appreciative of Ms. Leiter's desire to maximize the subdivision of this property. I also understand that there are other 50-foot wide lots in this community; however, whether these lots are the result of variance relief or nonconforming development that predates the adoption of the zoning regulations in Baltimore County is not clear. As to the subject proposal, it is apparent that the Petitioner has not satisfied the legal requirements for variance relief to be granted. Any contended hardship is surely self-imposed and the justification for the relief is nearly entirely economically based. Clearly, the Petitioner could subdivide her holdings into three lots and meet the requirements. Specifically, a single family dwelling could be built on Lots 115 through 117, a second on Lots 118 through 120, and a third on Lots 164 through 167. Ms. Leiter could even convey, for appropriate compensation, Lot 164 to Mr. Marll, the adjacent property owner, which

would provide him with a larger side yard and still leave her sufficient acreage to meet the regulations to build a single family dwelling on Lots 165 through 167. In any event, whatever her options, they do not include the proposed 5-lot subdivision. The Petitioner has clearly failed to adduce testimony and evidence sufficient to meet the difficult legal burden established by law.

Pursuant to the advertisement, posting of the property and public hearing on these Petitions held, and for the reasons set forth herein, the relief requested shall be denied.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this 2nd day of April, 2002 that the Petitions for Variance seeking relief from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of less than 55 feet as required, side yard setbacks of 5 feet each in lieu of the required 10 feet, a lot area of less than 6,000 sq.ft., and approval of the subject lots as undersized, pursuant to Section 304 of the B.C.Z.R., for a proposed subdivision to create five new lots, in accordance with Petitioner's Exhibit 1, be and is hereby DENIED.

Any appeal of this decision must be filed within thirty (30) days of the date of this Order.

ADVERTISING REQUIREMENTS AND PROCEDURES FOR ZONING HEARINGS

The Baltimore County Zoning Regulations (BCZR) require that notice be given to the general public/neighbor property owners relative to property which is the subject of an upcoming zoning hearing. For those petitions which require a public hearing, this notice is accomplished by posting a sign on the property (responsibility of the petitioner) and placement of a notice in a newspaper of general circulation in the County, both at least fifteen (15) days before the hearing.

Zoning Review will ensure that the legal requirements for advertising are satisfied. However, the petitioner is responsible for the costs associated with these requirements. The newspaper will bill the person listed below for the advertising. This advertising is due upon receipt and should be remitted directly to the newspaper.

OPINIONS MAY NOT BE ISSUED UNTIL ALL ADVERTISING COSTS ARE PAID.

Mr. Lawrence E. Schmidt,
Baltimore County Zoning Commissioner
County Courts Building - Room 407
401 Bosley Avenue
Towson, Maryland 21204

Dear Mr. Schmidt

I am writing this letter to protest the proposed zoning variances requested for the following locations:

303 Severn Ave.	Case # 02-302-A
303A Severn Ave.	Case# 02-303-A
308 Patapsco Ave.	Case# 02-299-A
310 Patapsco Ave.	Case# 02-300-A
310A Patapsco Ave.	Case# 02-301-A

The contract buyer of these properties wants to build five (5) houses on this plot of ground which is less than an acre. This would in effect jam these houses into a small piece of ground and create a density that cannot be found anywhere in this development. This is an old established neighborhood of individual homes and we would like it to improve in the future not become a blighted area. I am afraid the cluster of homes that are so close together would make it look like a housing project. This would decrease the value of existing homes in the area. In other parts of Baltimore County you need at least 1/2 acre lots or more to build a house. Please help keep our neighborhood at least looking respectable. We have worked so hard to work with the land we have and past zoning variances that we really don't need any more. This appears to be an exercise to squeeze as much money out of a piece of ground as possible with the blessing of the County. Don't be caught up in it.

Please deny these requests on all accounts. Perhaps three houses not five would make a better fit on this plot of ground but certainly not any more than that, and only if the existing house is torn down. I am not against progress or building to make the Community a better place to live as long as it is within responsible guidelines..

Thank you for any consideration you may give to this request.

Sincerely,

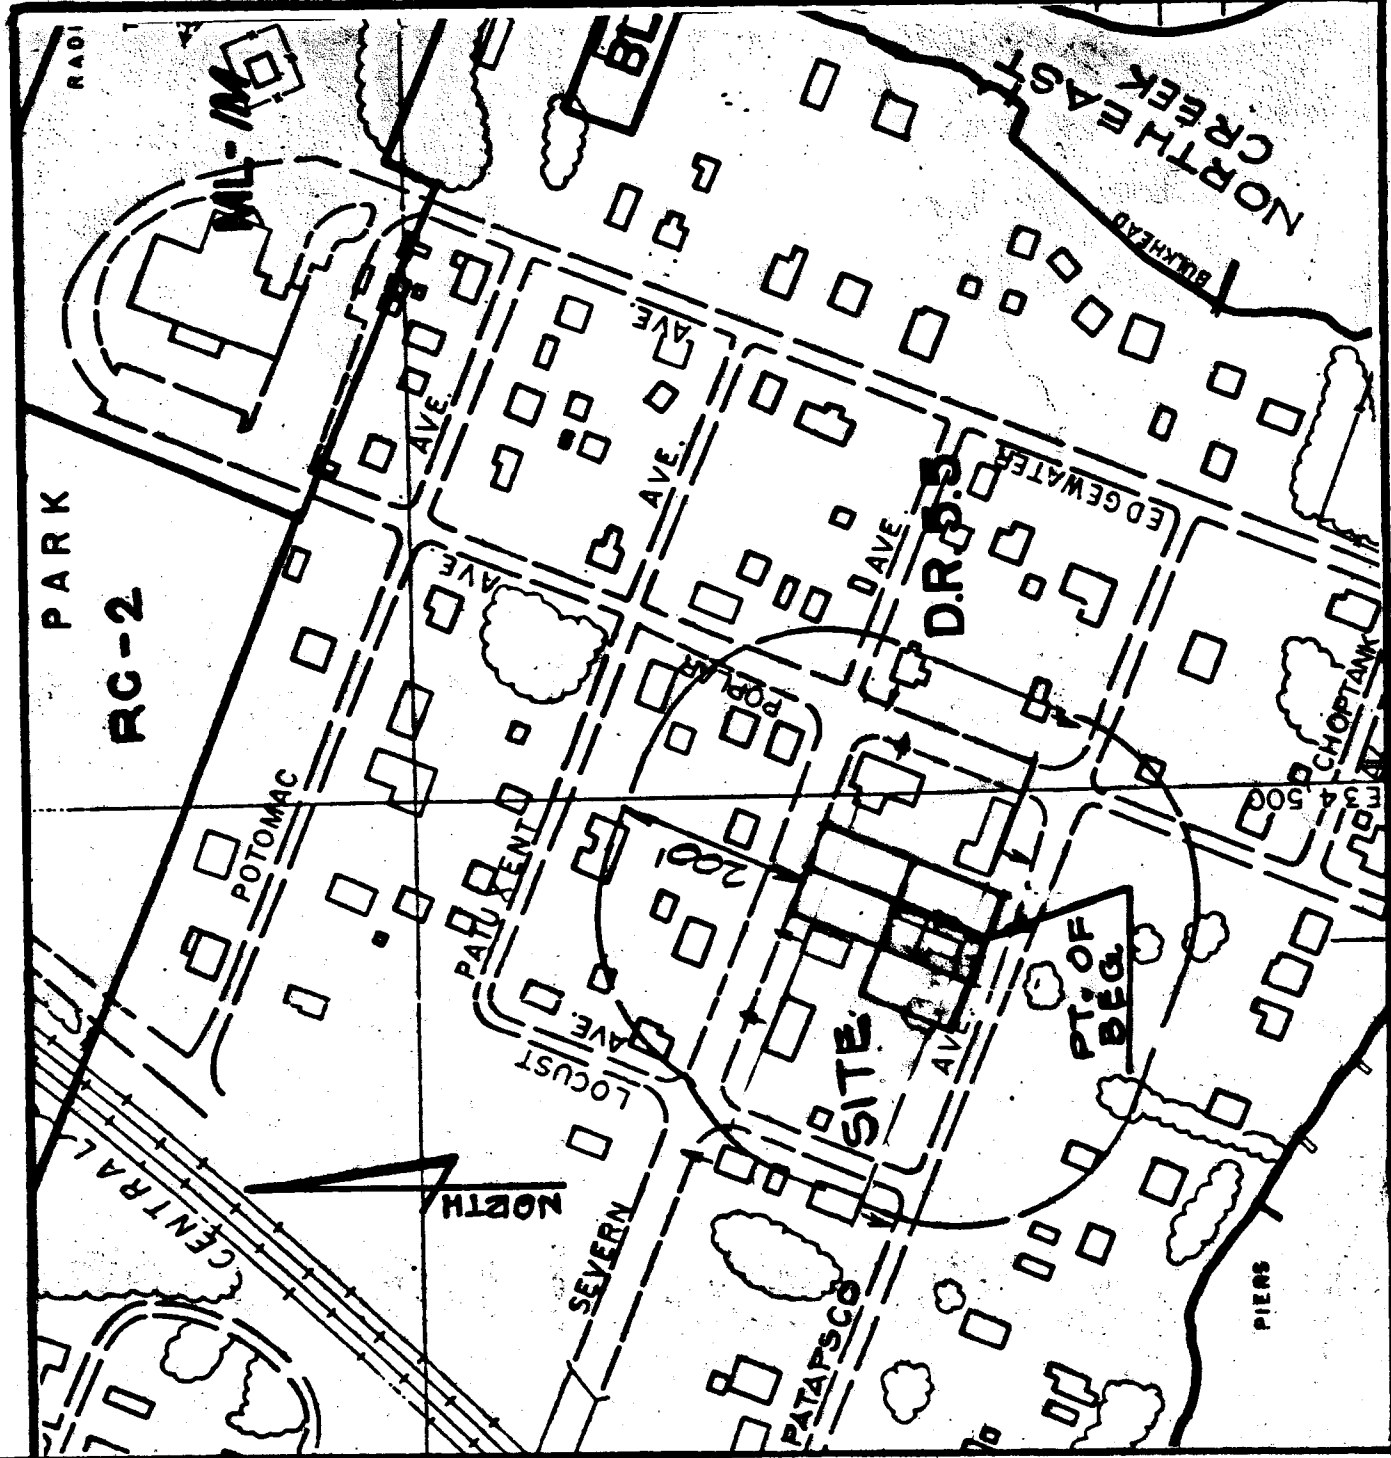

John L. Grumbach

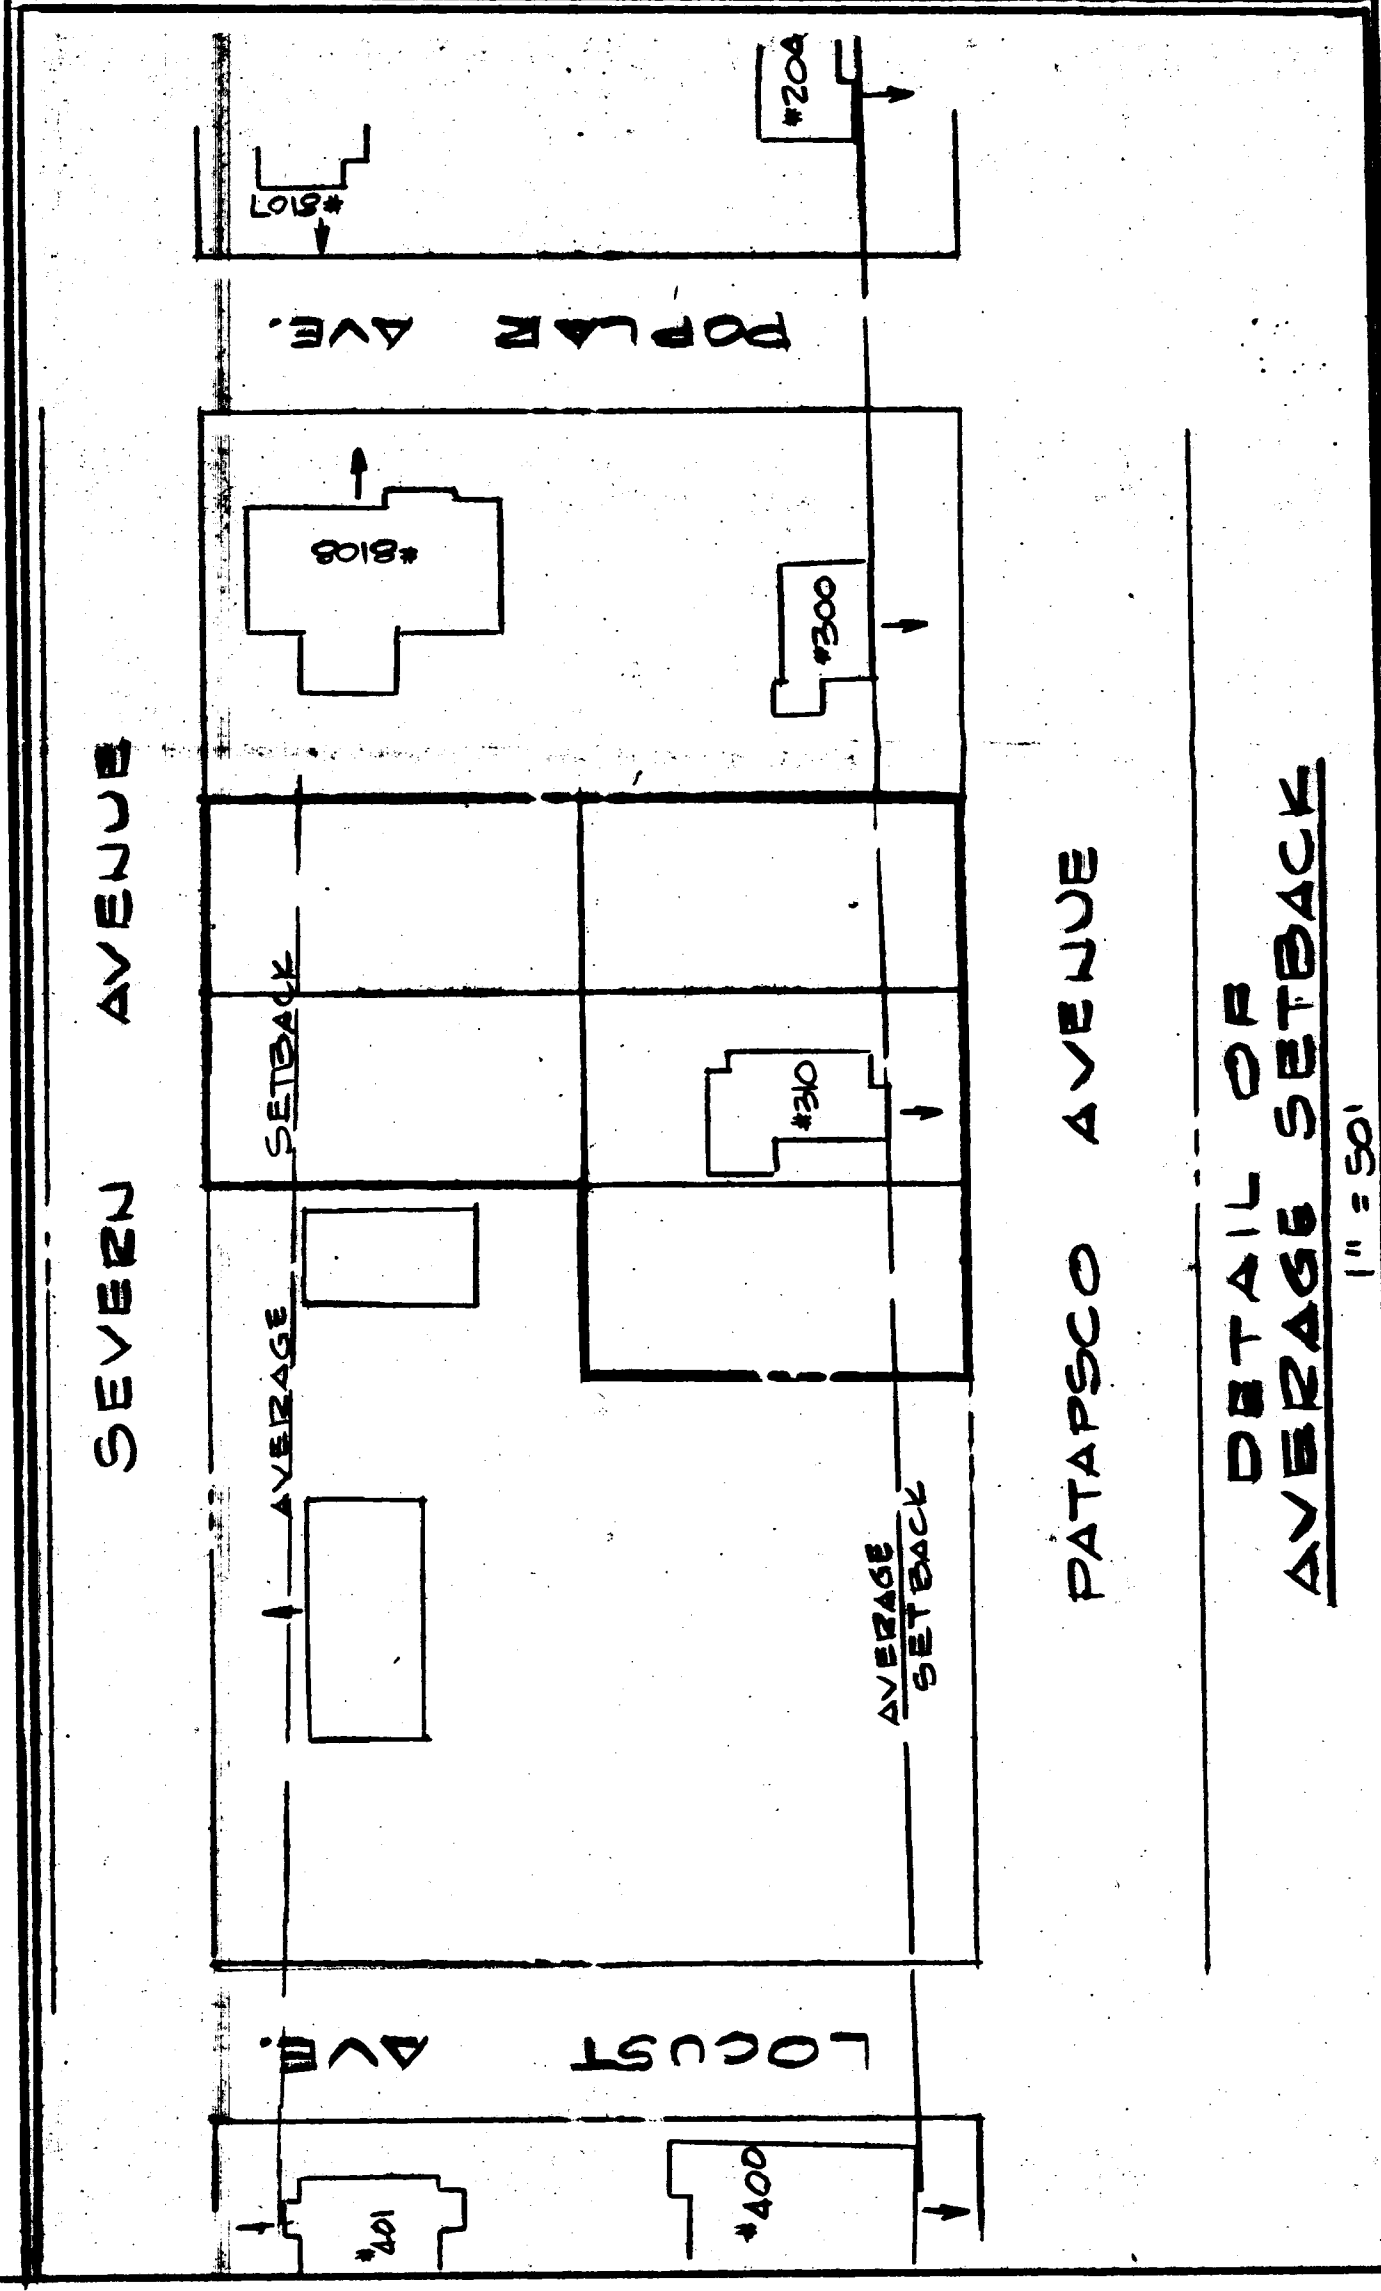

A resident of this old/established Community.
